Scholarships: Don't ever let money stand in the way of attending things. If there are not funds available through our youth account, there are often people we can find who want to help young people participate. It can get expensive doing these things and especially when there is more than one youth in family. If anyone knows about people who can use a financial hand, contact me with their name and we will provide financial assistance based on the need. Those names will remain anonymous. 910-441-0536 or nhumcyouth@yahoo.com
